

ORGANIC

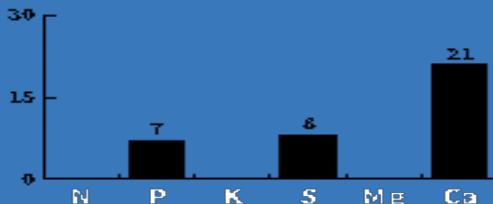

# TARGET 708

## PHOSPHATE SOIL CONDITIONER

### BENEFITS

- Cost effective plant growth and production
- Ideal for immediate and long term maintenance
- pH range 6-7, to protect soil biology and nutrients
- Non water soluble to prevent leaching and run off

### NUTRIENT ANALYSIS

### AVAILABLE PHOSPHATE

- 40% of Phosphate immediately released
- Will increase plant growth and crop yield
- Has stronger resistance in adverse conditions

### LONG LIFE PHOSPHATE

- 60% of Phosphate is slow release
- Nutrients remain present in soil for longer as they are non water soluble

### SOIL CONDITIONING

- Improve soil structure and increase aeration
- Increase holding capacity of water and nutrients

### ENVIRONMENTAL CARE

- Cadmium levels meet EU standards of 20ppm
- Well below NZ standards of 280ppm
