

M-POWER® for Septic Tanks

M-Power is a **live, biologically active liquid** inoculant containing billions of beneficial bacteria and fungi. This diverse biology is selected to minimize smell and support natural defense against pests and diseases.

Benefits

1. **Reduces ammonia, methane and sulphide gas** production and smell.
2. Helps **break down organic** matter.
3. **Reduces** sludge build-up.
4. **Longer time** between tank emptying.
5. **Helps clear** sludge from soak lines.

APPLICATION	
Initial Application	Add 20 L
Maintenance Application	If high loading or chemicals go into septic tank, then retreat. If tank is pumped out, then retreat.
Methods	Add directly to effluent tank or pour into toilet and flush to wash product into the septic tank.
Notes	Colder temperatures slow microbial activity (may need higher dose). If detergents, sanitisers or antibiotics enter then may need higher dose. If high effluent load into pond, then may need higher dose.
Product Storage	Up to 4 weeks out of direct sunlight
Advice	Observe changes over 2-6 weeks

PROPERTIES	
Form	20L
State	Suspension liquid
Specific Gravity	1.125
pH	7+ * * pH varies with microbial activity
Solubility	-
Odour	Low
BioGro Certified	Yes 4862
Handling	-
